

ETHIO TELECOM PARTNERSHIP PROPOSAL

GAMEON TELE

DIGITAL GAMING & ENTERTAINMENT
PLATFORM

TELEBIRR + MOBILE GAMING + DIGITAL ENTERTAINMENT

TARGET AUDIENCE:

Ethio Telecom Executive Leadership, Digital Business & Commercial Teams

Executive Summary

Next-Generation Digital Gaming Ecosystem for telebirr

TELEBIRR > GAME CENTER > GAMEON TELE > DISCOVER > SELECT > ACCESS

"An expandable digital gaming and entertainment platform designed to provide customers with monetization opportunities"

Current Foundation [CURRENT]

- 21 catalog games configured with 7 core interactive HTML5/WebGL game modules
- telebirr SuperApp integration architecture with native wallet display and coin top-ups
- Game-specific leaderboards with masked MSISDNs for customer privacy
- Multi-lingual framework supporting Amharic, Afaan Oromoo, Tigrinya, and English

Partnerships

- Co-branding with leading Ethiopian retailers
- Carrier partnerships (ETB / Mobicel / Safaricom)
- 5-Year strategic partnership (Pilot Case)
- National digital gaming ecosystem

The Opportunity: VAS Transformation

Transition from Traditional VAS to Interactive Digital Entertainment

Traditional Telecom VAS (Declining)

SMS SHORTCODE > SUBSCRIBED > STATIC CONTENT

- ' One-way static delivery (daily SMS tips, text horoscopes, ringback tones)
- ' Zero engagement stickiness or interactive feedback loops
- ' High customer churn and involuntary subscription drop-offs
- ' Perceived low consumer utility in modern smartphone era

Digital Entertainment

SUPER APP

- ' Rich content ecosystem
- ' High engagement and retention
- ' Social sharing and virality
- ' Micro-transactions and monetization

What is GameON Tele?

Four Core Pillars of the Scalable Gaming Ecosystem

1. DISCOVER [CURRENT]

- Dynamic category classification: Puzzle, Arcade, Racing, Action, Sports, Board, Music
- Search, trending titles, hero carousels & personalized recently played logs
- Comprehensive game cards detailing gameplay instructions, controls & coin costs

2. PLAY [CURRENT]

- Zero-friction onboarding
- Optimized for low bandwidth
- Responsive UI/UX

3. COMPETE [CURRENT & PROPOSED]

- Game-specific leaderboards preventing cross-game distortion [CURRENT]
- Masked customer MSISDNs (e.g. 091****123) for privacy protection [CURRENT]
- Scheduled daily, weekly, and monthly tournament prize brackets [PROPOSED]

4. MONETIZE [CURRENT & PROPOSED]

- Coin purchase & redemption
- Recurring subscription models
- Direct advertising

Why GameON Tele for Ethio Telecom?

High-Value Strategic Alignment with National Digital Strategy

SuperApp Engagement

Transforms telebirr from a utility payment tool into an indispensable daily lifestyle and entertainment hub.

New Digital Revenue

Unlocks high-margin non-voice, non-SMS streams via subscriptions, coin packs, and buy-ins.

Youth Demographic Capture

Attracts tech-savvy Gen Z and millennial smartphone users through culturally relevant, localized casual games.

Frictionless Carrier Billing

Direct one-click deduction from telebirr balances, achieving industry-leading payment conversion rates.

Customer Journey

Seamless User Experience from Entry to Reward Cycle

Current Game Portfolio

Verified Playable & Catalog Titles in Existing Codebase

Access & Monetization Models

Four Synergistic Revenue Streams for telebirr Integration

1. FREE ACCESS [CURRENT IN CODEBASE]

Target: Mass User Acquisition

Instant gameplay with zero monetary barrier. Acts as the primary top-of-funnel discovery mechanism to drive daily active user volume and social engagement.

2. COIN PURCHASES

Target: Premium Monetization

Players purchase virtual currency (coins) to unlock premium features, cosmetics, and faster progression.

3. SUBSCRIPTIONS [CURRENT ENGINE / PROPOSED PRICING]

Target: Predictable Recurring Revenue

All-Access VIP Passes offering unlimited gameplay across all titles, zero coin deductions, and exclusive tournament entry privileges.

4. ON-DEMAND CONTENT

Target: High-Margin Revenue

Standardized cosmetic packs and limited-time event passes available for purchase.

Proposed Subscription Pricing

Illustrative Tiered Tariff Architecture for telebirr Subscribers

NOTICE: SUBJECT TO ETHIO TELECOM COMMERCIAL APPROVAL & REGULATORY REVIEW

Dynamic theming engine allows seasonal reskinning for national holidays (Enkutatash, Meskel, Eid) and

Partnership Operating Model

Clear Division of Roles for Seamless Joint Execution

ETHIO TELECOM RESPONSIBILITIES

- ' Customer Reach: Access to 75M+ mobile network subscribers
- ' SuperApp Placement: Prominent icon and banner placement in telebirr
- ' Carrier Billing & Wallet: Direct debit API and wallet balance settlement
- ' Marketing & Promotion: National SMS campaigns, social media, and data bundling
- ' Regulatory Oversight: Regulatory notifications, lottery/gaming compliance & approvals

GAMEON TELE RESPONSIBILITIES

- ' Platform Integration: Seamless integration with telebirr ecosystem
- ' Game Portfolio: Curated selection of mobile games for Ethiopian market
- ' Tournament Management: Organizing and executing gaming tournaments
- ' Integration & UX: Ensuring smooth user experience across both platforms
- ' Product Development: Collaborative development of new features
- ' Production & Support: Ongoing production, updates, and user support
- ' Regulatory Compliance: Ensuring adherence to gaming regulations
- ' Marketing & Promotion: Joint marketing efforts to drive adoption
- ' Data Analytics: Shared insights and analytics for performance optimization
- ' Financial Reporting: Transparent reporting on revenue and costs
- ' Legal & Compliance: Joint review of terms of service and privacy policies
- ' User Onboarding: Streamlined onboarding process for new users

Commercial Model

Multi-Stream Revenue Generation Framework

NOTICE: SUBJECT TO FINAL COMMERCIAL NEGOTIATION & CONTRACTUAL AGREEMENT

1. Recurring Subscriptions Primary Revenue Driver (~65-70%)	Daily (10 ETB), Weekly (50 ETB), and Monthly (100 ETB) subscription tiers.
2. Coin Micro-Purchases Secondary Driver (~20-25%)	On-demand coin bundles (10, 20, 50 coins) for in-game purchases.
3. Tournament Buy-Ins High-Engagement Margin (~5-8%)	Special ticketed entry fees for premium tournaments.
4. Brand Sponsorships & Ads Tertiary Growth Stream (~3-5%)	Non-intrusive brand placements, sponsored events, and targeted advertising.

Five-Year Business Case

Base-Case Growth Model Projecting 215.50M ETB Gross Revenue

NOTICE: ILLUSTRATIVE BASE-CASE GROSS CONSUMER GAMING REVENUE — NOT A GUARANTEE

Metric	Year 1	Year 2	Year 3
Monthly Active Users (MAU)	100,000	250,000	500,000
Paid Conversion Rate (%)	8.0%	9.0%	10.0%
Coin User Rate (%)	5.0%	7.0%	9.0%
Gross Annual Revenue (ETB)	3.60M ETB	11.91M ETB	30.36M ETB

Year 1 Baseline

3.60M ETB

Conservative launch ramp with 100K MAU

Year 3 Scale

30.36M ETB

Matured subscription base at 500K MAU

Year 5 Projection

109.50M ETB

1.2M MAU at 9.0% conversion

Illustrative Commercial Scenario

Illustrative 55% / 45% Net Revenue Share Scenario

NOTICE: ILLUSTRATIVE COMMERCIAL SCENARIO — NOT A CONTRACTUAL COMMERCIAL OFFER. Subject to commercial negotiation, legal review, and final agreement.

Proposed Baseline Split: Ethio Telecom (55%) / GameON Tele (45%)

Year	Gross Revenue (ETB)	Ethio Telecom
Year 1	3.60M ETB	~1.98M ETB
Year 2	11.91M ETB	~6.55M ETB
Year 3	30.36M ETB	~16.70M ETB
Year 4	60.19M ETB	~33.10M ETB
Year 5	109.44M ETB	~60.19M ETB
5-Year Total	215.50M ETB	~118.53M ETB

- Ethio Telecom captures ~118.53M ETB in high-margin non-voice revenue over 5 years
- GameON Tele reinvests ~96.98M ETB into platform hosting, game licensing, and local developer ecosystem
- Payment processing fees, prize allocations, and statutory taxes accounted for per contractual terms

Revenue Sensitivity Analysis

Stress-Testing Scenarios across Conservative, Base Case, and Upside

NOTICE: MODELING PURPOSES ONLY — ACTUAL RESULTS WILL VARY BASED ON MARKET DYNAMICS

Conservative Scenario

107.75M ETB

5-Year Gross Consumer Revenue

Ethio Share (55%): ~59.26M ETB

Peak MAU: 600,000 MAU

Paid Conversion: 6.0% - 8.0%

Assumptions: Slower SuperApp promotion, lower discretionary digital spend, baseline 30-game catalog.

Base Case Scenario

215.50M ETB

5-Year Gross Consumer Revenue

Ethio Share (55%): ~118.53M ETB

Peak MAU: 1,200,000 MAU

Paid Conversion: 8.0% - 12.0%

Assumptions: Active telebirr feature placement campaigns, full 100+ game roadmap execution

KPI Framework

Four Strategic Measurement Quadrants for Platform Performance

1. Customer Reach & Scale

- Daily Active Users (DAU) & Monthly Active Users (MAU)
- DAU / MAU Stickiness Ratio (Target: >22%)
- New Customer Acquisition Velocity & Conversion Rate
- Monthly Subscriber Churn Rate (Target: <7%)

2. Monetization

- Paid Customer Acquisition
- Average Revenue Per User (ARPU)
- Telephony Revenue
- Gross Revenue

3. Engagement & Retention

- Average Daily Session Length (Target: 15-20 min)
- Day-1, Day-7, and Day-30 User Retention Rates
- Average Game Sessions Per Active User (Target: 3.5)
- Leaderboard and Tournament Participation Rates

4. Content & Community

- Top 5 Games
- Category Performance
- New Content
- Game Ratings

Pilot Program Proposal

Low-Risk 90-Day Market Validation in Controlled Environment

NOTICE: CONDUCTED WITHOUT REQUIRING ANY CORE APPLICATION REDESIGN

Scope & Portfolio

Deploy current 7 core modular games (Candy Blast, World Legends, etc.) + selected catalog titles to test breadth.

Audience

Controlled

Commercial Testing

Evaluate 10 ETB Starter Coin Packs and Daily/Weekly VIP Pass conversion under promotional tariffs.

Flagship

Run one distribution

Pilot Success Milestones:

' Achieve >65% game session completion rate | ' Achieve >8% conversion to coin purchase or VIP trial wallet settlement

Implementation Roadmap

Six Structured Phases from Technical Sandbox to 100+ Ecosystem

NOTICE: DATES AND TIMELINES MUTUALLY AGREED UPON SIGNING

Phase 1	Technical Sandbox Validation	telebirr API sandbo
Phase 2	Controlled Pilot Launch	90-day pilot with 50
Phase 3	Commercial SuperApp Launch	Full nationwide laun
Phase 4	Game Catalog Expansion	Rollout to 50+ diver
Phase 5	Esports & Tournament Scale	Nationwide weekly
Phase 6	100+ Game Scaled Ecosystem	Mature digital enter

Partnership Action Plan

Ten Concrete Steps to Launch the Joint Digital Gaming Ecosystem

1. Strategic Executive Briefing: Present proposal to Ethio Telecom Digital Business leadership	2. Technical Integration: Develop API specifications for user authentication and payment processing
3. Commercial Framework Agreement: Finalize revenue share and billing economics	4. Tariff Validation: Confirm regulatory compliance for digital gaming services
5. Regulatory Review: Complete national lottery / gaming compliance assessments	6. Sandbox Testing: Conduct joint pilot in a controlled environment
7. Pilot Execution: Monitor user telemetry, payment flows, and retention metrics	8. Joint Marketing Campaign: Launch coordinated promotional activities
9. Nationwide Commercial Launch: Execute coordinated marketing and SuperApp feature rollout	10. Long-term Review: Schedule quarterly business reviews for performance
